

## Spud Martin Group

### BAND STORY

"About me In my heyday I had a country band. We played just for the fun of it and due to a walk down the isle and other commitments we disbanded and went our separate ways. Later I took great delight representing songwriters and artists, and in all facets of the music industry. My song catalog is vast and ever changing with new songs in all genres. My music connections to the Major and Indy markets are well received. I take great pleasure working with A&R Representatives, artists and music media, always searching for, "That Perfect Song For That Very Special Project"!
